

## 66 Proofs for 14 Prophetic Calendar Railroad Stations

God's Plan for Humanity runs on a scheduled route through 14 stations like an international train in Europe. If you have the train schedule in hand, you do not need a wristwatch to know what time it is. Just look out the window to see what station you are at and compare it with the schedule to know what time it is to the minute, hour and day.

1. From the beginning, God designed a series of key events.

2. The events accomplish His purposes on earth.

3. I applied scientific methods used to invent hi-tech devices.

4. I discovered the critical event junctures of human history and prophecy embedded in the Bible like 14 railroad stations.

Bible Prophecy is structured on two different ancient calendar systems, which is a vital fact not known by theologians or scientists. In particular, the books of Daniel and Revelation provide the data to identify those 14 stations within their symbolic prophetic language. These two different calendar time zone systems also behave like the Fahrenheit and Centigrade temperature scales and operate on two autonomous systems. When the international train of my analogy passes through a different time zone, the schedule automatically reflects that change.

If one does not know that different time zones exist, then comparing the schedule to one's wristwatch becomes confusing. The Bible's parallel chronological systems measure the past to future timeline just as the Fahrenheit and Centigrade temperature scales both measure the same physical temperature outside. The two different temperature scales come together at minus 40°, where they indicate the same point in the continuum of warmth-coldness with the same number. In Bible prophecy, several ancient calendar systems meet at one point in time, 21 December 2012.

The relationship between the two temperature scales is similar to how different calendars mark the same date in time in parallel systems. My research correlates the Gregorian-secular-NASA calendar with several ancient calendar systems in order to arrive at a single calendar scale to apply to antiquity and prophecy.

This approach reveals several prophetic cycles or gears that can be demonstrated in the time

positioning of the key events in bible history. With a single calibrated scale based on astronomical events (like solstices), it becomes possible to project the precise dates of events predicted for the future.

On **21 December 2012**, several autonomously developed calendar systems align dramatically similar to the minus 40° example above for the Fahrenheit and Centigrade temperature scales. Thus, the biblical, Hebrew or Jewish calendar of history and prophecy is confirmed by chronological points of intersect with the following non-biblical time markers:

- the Mayan-Aztec calendar and pyramids
- the Chinese Zodiac and yin-yang systems
- and various ancient calendar clocks such as the 100 BC Antikythera Mechanism.

The Bible requires two witnesses [+ one] to prove a matter within a community or in a court. (Deuteronomy 19:15) My research in dating the event markers of the seven-year Apocalypse provides 66 proofs to support its integrated projection of the future.

Using the **Hebrew Alphabet Number System (HANS)** I have combined three dissimilar calendar dating systems in particular that align to an exact day, which works out to 66 (3 x 22) – 3 calendar systems times the 22 letters of the Hebrew alphabet. Interestingly, this gives one proof for each of the Bible's 66 books.

### The Bible's Rosetta Stone of Prophecy

The Hebrew letters have imbedded meanings and mathematical values that can be used in dating future events. The events of history-prophecy are laid out like train stations located along a scheduled run along a rail track of time cycles run according to a Daleth Dimension [in this world in this time] clock wound up in the Heh Dimension [heaven, the other side]. That discovery exposed a calendar clock embedded in Genesis than led to deciphering ancient bronze-gold clocks exhibited in many museums.

The above example of parallel numeric degree scales to measure temperature demonstrates how the same physical property may be accurately described by parallel number systems. We most commonly use a base-10 system using digits from 0-9. The binary system used in

## 66 Proofs for 14 Prophetic Calendar Railroad Stations

computers only utilizes 0 and 1, off and on. In every system, a digit's value is determined by its ordinal position in the numeric array or line-up. For our commonly used base-10 system, math teachers talk about the 1's **place**, 10's **place**, 100,000's **place**, etc. for any given number.

Major Biblical prophecies are usually interpreted on multiple levels of understanding and fulfillment. A major event of prophecy often has one or more foreshadowing types - either sets of events or persons.

The time elapsed between prophetic fulfillments varies. It is like standing on a mountaintop and seeing other mountaintops at varying distances without being able to visually determine the precise gaps or distances between them, how large or broad the valleys are between them. This phenomenon is particularly true for the most important events in Gods' Plan for Humanity.

The biblical book of Daniel, especially the 70 Weeks Prophecy found in **Daniel 9**, follows this pattern of prophetic fulfillment particularly well. Solving its mysteries revealed what I call the **Rosetta Stone of Bible Prophecy**. This prophecy predicts the first and second comings of the Messiah. The key to unlocking the mysteries of this prophecy was discovering that it was written using two number systems - one for each coming:

1. **Daleth Dimension** system of natural time and space, which is a base-7 system where one prophetic week equals 7 years. It accurately predicted the birth of Messiah Jesus (Yeshua in Hebrew) in AD/BC crossover.
2. **Heh Dimension** system of the heavenly or metaphysical side of reality, which is a base-5 system where one week equals 50 years. It predicts that Jesus/Yeshua will come again at the end of the Apocalypse in 2015, but the day and hour are unknown.

The 7-based and 5-based number-time marking systems possess differing numeric positions of ordinal importance. This means that the pivotal 70<sup>th</sup> Week is located differently in each number system. The base-7 placement of the 70<sup>th</sup> Week (the seven years of the Apocalypse) is located in or aligns within the base-5 range of the 70<sup>th</sup> Week, which begins in 1968 and ends in 2018. (See **Chapter 7 of Mystery of Tammuz 17** for a complete explanation.)

Daniel 9:24-27 is the keystone Scripture of Bible prophecy. The 7-based and 5-based chronological correlation became the foundation of my Rosetta Stone to understanding Bible prophecy: a 7:5 ratio, two-rail railroad track code that deciphers heaven's program for earth.

Just as the Rosetta stone enabled Egyptologists to unlock the mysteries of Egyptian hieroglyphics, so the biblical Rosetta Stone unlocked many of the key mysteries surrounding the dating the Apocalypse. Calculating dates based on mathematical systems of 7s and 5s results in several other amazing insights, too.

The Bible or Hebrew calendar is based on a 490-year cycles with a range of 7,000 years that theologians are familiar with, but another calendar system was used by the Aztec calendar and the **Antikythera Clock Mechanism** constructed on a scientifically deciphered 14.305789-year time constant. If we multiply this constant with Daniel's time, times and ½ time, we get the same chronological scope of history and prophecy as 12 cycles of 490-year length determined by an alternate scalar methodology that is not dependant upon or derived from the approach taken in the Aztec-Antikythera analysis.

How is that possible? Check it out in **Chapter 7 of Asteroid Answers to Ancient Calendar Mysteries!**

Note that both calendars are based on solstice-equinox calculations that become the third [or +one] witness. The full scope of God's Plan for Humanity is now revealed for the first time. It has never been preached in church, and I have dated it with a corrected NASA calendar matching the Apocalypse mathematically with 3 witnesses in 66 proofs. The 22 HANS dates found below find parallels in 3 prophetic calendar systems.

These discoveries came from investigating the **Hebrew Alphabet Number System [HANS]**, which reveals a way to crosscheck difficult biblical interpretations from a 360° perspective not used in theological and scientific circles.

If you want to learn about God's Plan for Humanity, do some more reading on this web site. It is available to read or download free. It is not written in confused theological language but with analogies drawn from nature by a retired scientist. It is impossible to review all of the new Bible understanding contained in my 6 "Babushka Books" without repeating most of those books. I

hope that our introductory overview pages have peaked your desire to read more.

One thing I can tell you for sure: there are no more excuses for Christians to show off their ignorance by saying, "No one knows the time." To do so is to misquote Matthew 24:36 out of scriptural context. A warning is now given by God to pastors: do not loose your reward by being an enemy of the cross. A watchman who does not listen to God's warning brings dire consequences upon himself.

Read how you can increase your chances of surviving God's Wrath soon to come as promised. You are invited to become a ruling member [a

Saint] of the coming Messianic Kingdom Age. The Saints will be tested under terrible circumstances, but they will also receive the highest honors given according to God's will and purposes planned before the foundation of the earth!

The Apocalypse 2008-2015 is certain. Less certain but probable, is the destruction of New York City on or about 9 February 2009, which is at the start of the Sea-Beast system prophesied in Daniel-Revelation. If you live in the New York City area, at least take a vacation that week if you want to increase your chances of living a little longer.

22 HANS Dates for Human History (Hebrew Alphabet Number System calibrates the Gregorian Calendar)		
HANS	Date	Event
<b>Aleph</b>	4488 BC	Lucifer's Rebellion (Aztec clock)
<b>Beth base-5</b>	4068 BC	Adam-Eve Creation (Hebrew clock)
<b>Gimel base-7</b>	4004 BC	Zayin Age (Human Life Outside Garden of Eden)
<b>Daleth</b>	21 December 2288 BC (Death of Methuselah)	<b>First Apocalypse</b> (Noah's Ark door closed)
<b>Heh</b>	5 February 2287 BC Aztec (X-axis) 17 September	<b>First Asteroid Strike</b> - Hebrew (Y-axis) Genesis - Second Month, 17th day
<b>Waw</b>	9 <sup>th</sup> Av 588 BC	<b>1st Jerusalem Temple destroyed</b>
<b>Zayin</b>	<b>518 BC</b>	<b>Center of world history-prophecy</b>
<b>Cheth</b>	BC/AD	Infinite-finite Time Curve (Ancient calendar crossover)
<b>Teth</b>	AD 33.4	Resurrection of Jesus Christ
<b>Jod</b>	9 <sup>th</sup> Av AD 70	<b>2nd Jerusalem Temple destroyed</b>
<b>Jod+1</b>	21 December 2008	<b>Second Apocalypse</b> US-EU-Islamic conflict-Antichrist-Beast of Sea
<b>Jod+2</b>	9 February 2009	New York destroyed?
<b>Jod+3</b>	<b>21 December 2012</b> (Aztec-Chinese-Hebrew)	Daniel-Revelation-HANS (Antikythera clock-Hebrew Rosetta stone 7:5)
<b>Jod+4</b>	9 <sup>th</sup> Av 2015	<b>3rd Jerusalem Temple destroyed</b>
<b>Jod+5</b>	17 September 2015	<b>Second Asteroid Strike</b> (Ending our civilization)
<b>Jod+6</b>	21 December 2015	Apocalypse Ends (Daniel-John-clocks)
<b>Jod+7</b>	AD 2018 (17 <sup>th</sup> Tammuz)	Kingdom of God on Earth (begins 1,000 years of peace and prosperity)
