

#9 - Jonah-II New Year's Resolution 2016-2017

A New Year's resolution is like summing up experiences, highlighted events from the past, and then project possible predictions for the next year - either good or bad, thus we should use history linked to Torah-Bible prophecy for a better future. Ten years ago the Creator ELOHIM appointed a Jonah-II to give warning to our hi-tech civilization, which has maxed out the Richter scale of Wickedness to test **YHWH Wrath** once more. It will end similar to the Noah's Civilization that totally perished in 2288 BC documented by Moses in the oldest book.

After 2000 years Yeshua-Jesus is again the central person worldwide in the forefront of his Grand Plan for Mankind since the beginning of this universe in 4488 BC researching ancient history with factual science. Some can visit global museums investigating ancient stone-bronze-gold clocks measuring earth wobbles embedded in various calendars (*free Babushka egg concept book #3*), thus it is possible to date future events. The Creator ELOHIM had to change the Kosmos management, so he created a different species, because the angels could no longer be trusted after Lucifer's rebellion. Many YouTube videos are assembled in a large web choir, each singing their own life script to reach a crescendo like Handel's Messiah Hallelujah to retell their song-story of life-death or redemption. Again, Kosmos evil is met in Judgment, but because of God's Mercy, it might be delayed if people repent like at a Nineveh society, or end in Sodom and Gomorrah. The divine Plan for Mankind was destined 6000 years to terminate Satan's control over mankind followed by a Sabbath rest after **Solstice 2017**.

Layouts of many Apocalypse events were published in fourteen Babushka egg concept books and numerous Pearls under a penname Jonah-II that described God's Plan for Mankind. Why was it suppressed in many churches and universities? Thus, knowledge of true science is embedded in the Torah-Bible to complement a paradox understanding: many exist as mankind has forgotten lessons not learned from ancient history to teach truth. Nature teaches many concepts to understand a Bible better mirror imaged in physics and forbidden metaphysics.

Projecting Torah-Bible prophecy only two events remain to end in horrendous Apocalypse birth pains never repeated: One is the appearance of Antichrist and his prophet, perhaps the Pope, similar to Hitler-Goebbels based in the *Daleth* dimension, the other two witnesses are from the other side *Heh* dimension.

Sound Bites in front of the Abyss of God's Wrath

Never experienced before in history; Satan will be morphed on earth and is opposed by Elijah prophesied by Jesus and Malachi. What was observed in various Babushka Pearlettes could now be seen on many YouTube videos perhaps appointed Obama as the Antichrist? He remains in office until 21 January 2017 when the US Congress, Senators, Justices - the whole shadow government maybe assembled in the Congress basement having a Sodom-Gomorrah Illuminati party. Will a 9/11 NYC event be repeated to end the US government parallel to ending the 240-year US Constitution like mirror imaged in a Samson Bible story? (**Judges 16:30**) Many similar prophecy events were described in Babushka Pearls like #666, #276, #251 confirmed in the video new Fed Coin:

Never was so much authority concentrated in one individual mortal US president ever to have lived on earth, being the commander controlling a global Military and European NATO with submarines and rockets in the sky all held back by a nuclear button for total life extinction. Many questions surrounding Obama still exist, like museum experts skilled in forgery pointed out that his birth certificate was faked. Thus, the White House controls many wars, manipulated with a fiat currency printed by the NYC psychopath bankers club, only to elect corrupt government and globally dictators with huge bailouts ending in quicksand. Will an Islamic Trojan Horse pass on his supreme reign to the next elected president Trump to become the biggest global emperor in 6000-year history, perhaps becoming the Antichrist? Will another faked 9/11 event initiate the Fourth Seal in **Revelation 6:7** globally killing billions, a quarter of the earth's population and usher in Jacob's Trouble 6 months later, killing 4 million Jews in Israel ending the Apocalypse? Will you survive YHWH Wrath with a 90% population loss? Thus, believe Yeshua's promise to live forever. Bible-Prophecy has always come true. When a civilization became absolute Evil again destroying all life on earth with hi-technology historically has perished in an Apocalypse. It is a big affront to the Creator, violating many of his Kosmos laws that maintained mankind for 4300 years and never missed a season to give us food, but denying his sovereign right? My advice is to wake up and get your sins forgiven by Yeshua to be safe. One way another divine judgment will possible end after **2017!**
