

Six Babushka books explore recent scientific and biblical discoveries never before discussed in the halls of universities. Like a Russian toy egg containing multiple smaller eggs with the same picture illustrates scaled concepts, these books discuss these new concepts - mostly using everyday language.

The Babushka books ended with a new theory of atomic nucleus structure - the smallest egg. It is nested within the next bigger egg explaining why many Genetically Modified Organisms are forbidden by God. Genetic manipulation practiced before Noah's Flood ended the civilization called Atlantis by the Greeks in 2288 BC.

The Flood started with a great asteroid strike that caused the earth to wobble. (Psalm 104:5-6) It took centuries for the earth's wobble to even out to its present rotational axis, which is the reason why there are so many pyramids, huge stone observatories and ancient mystery clocks of bronze and gold. The ancient Greek Antikythera Mechanism of over 30 bronze gears from 100 BC is one example. Many more can be seen in museums around the world.

The recent discovery of a **Rosetta Stone** in the Bible opened up a new scientific perspective on Bible prophecy. It helped to straighten out the mixed up chronological order of pages in Revelation that will end theological confusion about what lies ahead of all of us on this planet. It is crosschecked by non-biblical witnesses found in ancient cultures from around the world, as well as the newly discovered **Hebrew Alphabet Number System**, more rationally dependable than better known Bible codes.

Herbert Stollorz's Babushka books attempt to explain more fully many concepts of God's design of the universe and purpose for life as cross-referenced with scientific discoveries. I present a balanced, 360° theater-in-the-round projection by including discoveries like HANS, which opened many more mysteries.

For the first time God reveals his **Plan for Humanity** and the Apocalypse is scheduled for: **21 December 2008 – 21 December 2015**

If you want to survive the Apocalypse, now is the time to do some serious reading and reflecting. Be prepared spiritually. Do not base your faith beliefs on your pastor or anyone else. Decide for yourself about these startling scientific discoveries about Bible prophecy.

6 A new Atom Nuclear Story

A rainbow in heaven
Creating a Universe

$$E_{\infty} = m (+\infty C / -\infty C)^2$$

How did God create the universe? For centuries people looked up into the stary sky and wondered about how it got started. How old is the universe? Why does it exist?

Many forces we experience daily cannot be fully explained by physics. For example, how is "life" manufactured? Where did it come from? The same line of questioning applies to gravity, which is still a mystery. Add to it magnetism, electricity, light and what we call the dimension of time, and even more concepts debated in science and religion in fact become even more complex. My last Babushka book explains nuclear science in simple language for the average person.

#5 Reflections on Global Warming

This book covers the latest and most popular hot buttons for politicians to put more money in their pocket. Not surprisingly, they are not interested to learn that historical events reported in the Bible can tell us the cause of global warming. We can read about climate change in ancient books of many civilizations especially coming from a historic 4,000-year Bible perspective.

#4 Genetic Modification Exposed

This book explains why the Apocalypse must be so severe. Because of modern technology's unnatural and greedy manipulation of many species' genetic codes, God must destroy large areas of the globe to preserve the creation. The world's environmental ecosystems must be cleansed and purified through fire and extensive calamities so that mankind can survive.

#3 Asteroid Answers to Ancient Calendar Mysteries

2012, Aztec Pyramids, Antikythera
& Other Ancient Calendar Clocks

This one is about this special place we call earth and how it got started. Since many theologians and scientist are ignorant of the Bible and nature, they think that God must be stupid.

Yet, the ancients did know some interested parts of the story, which serve as independent, historical witnesses across the ages and from around the world that confirm Bible prophecies. Because the earth once had a rotational wobble, it posed a great challenge to early scientists and priest. It is very interesting to see how various ancient cultures solved the common problem of uneven years and shifting lengths of seasons by building so many pyramids, outdoor observatories, clocks and calendars.

#2 Mystery of Tammuz 17

This book explains many mysteries found in reading the Bible that have stumped theologians for centuries. In particular, it explains how key events of the Apocalypse can now be dated and why it was not possible before. The prophesied Apocalypse will take place over a seven-year period, which was precisely scheduled from the beginning of time.

#1 Apocalypse Prophesied

This book presents God's 7,000-year Plan for Humanity depicted by a cuckoo clock system composed of two dials. Each dial marks the time dimension by cycles according to the Hebrew Rosetta Stone 7:5 ratio - a peculiar clock used on earth. This book presents a synopsis of God's plan from the creation of the universe to the end of human history. It was written for those who might not have easy access to a Bible and so includes a thousand Bible verses that can be read free on the Internet in four languages. The entire book (or by chapter) may be downloaded for free in all four languages. Published English, Spanish and German editions may be purchased through our Amazon book store.
