

#5 - Why did it Happen to me?

The Torah-Bible reports factual science information from the metaphysical *Heh*-dimension that could widen knowledge horizons, if you are interested in the paradox of life. Checking my personal history, I wondered why I was spared from death numerous times and still marvel, thus I was urged to further research the “why”. The reality of a deadly encounter could be revealed to a Christian. Perhaps the Creator ELOHIM wanted some special people seated at his kings table, thus some became privileged among millions. Studying Bible history could explain why some individuals left a unique mark on earth by writing about their experience, later venerated as special saints.

In the beginning of the Kosmos a disposition just happened. No one knows why. Perhaps the Creator needed to modify his creation to find out who is loyal and happy to live in His house by His rules. Was the self-interested angel community well adjusted, or were some dissatisfied with their neighbor causing trouble? Eventually Lucifer rebelled in 4488 BC, which revealed that many angels disagreed. They were condemned to live in outer darkness forever, changed to demons. EVIL, like a cancer, will propagate and destroy every life form, ending in utter chaos. Thus, God the Creator had to insert a correction for a future Kosmos, shifted to a lower detour level. A replacement administration began with the Adam and Eve story to expand the Kosmos, but this time mankind was replicated in two stages like nature's caterpillar-butterfly cycle. Now everyone must pass the test of Good & Evil not created robots, like angels who could no longer be trusted. Some special people were selected from mankind destined to co-rule the Kosmos called the Firstborn or Saints, the last word in the Bible.

Angels originally were designed to live forever with a free will to choose, not being robots. Thus, they could disagree and go against the Creator, as some did not appreciate the environment he provided. Scripture recorded a huge rebellion instigated by the highest Cherub-angel Lucifer, who threw the Kosmos into turmoil. God the Creator YHWH knew about it beforehand, thus he built in a test, designed like a cuckoo clock, to announce the point where some angels would be unhappy no longer loyal to the sovereign Kosmos ruler.

This started a plan to replace an administration that became vacant when the rebellious angels were demoted to demons and

Sound Bites in front of the Abyss of **God's Wrath**

sent into outer darkness, lest they spoil the happiness of the remaining angel community.

The designed mortal replacement was built on a two-stage system as illustrate in nature by the caterpillar-cocoon-butterfly lifecycle. However, those removed had to live forever in outer darkness, a horribly endless existence, thus God revealed his supreme Love when he became visible in Yeshua-Jesus to introduce Eternal Death for those he created who want out. Satan is now employed to inoculate mortals to be immune with a good dose of evil. Closing the "Time" dimension curtain, only mortals have the option *Mercy onto Life* or *Mercy onto Death*.

But Mortals have no capacity to comprehend an invisible spirit Creator expressed in brilliant invisible light, thus he decided to become visible which got the angels to rejoice being born as Yeshua-Jesus. He became visibly shrouded in a son-father relationship to explain a divine paradox to lower created minds. It required a new *Daleth* entropy dimension to be born mortal. Only a divine essence could atone for the Kosmos violation Satan caused, thus he died on a cross for a leftover problem. But when the shrouded Deity died, he demonstrated a new Law of Kosmos DEATH for every created being, which was even beneficial for demons now in hell, created to live forever. When Yeshua died on the cross, it revealed his hidden Love to a disturbed Kosmos now made whole again.

Check the human history and put it alongside the Torah-Bible to understand a mystery not taught in church, as most theologians rebelled being misled by Satan's deception and lies. Mankind has again reached the point of absolute Evil through GMO's by permanently altering genetically the intelligence of the creation, linked to poisoning the environment worldwide, willfully causing massive extinction, destroyed by an unforgiving nature. **Evil to the core scientists** changed genetically the food supply for future generations. Worse, some are giving birth to cross aberrations half-human / half-animals to alter the human race along with destroying all Life on earth. Watch *YHWH- Wrath* interfering once more like Sodom and Gomorrah or replicating the destruction of Atlantis - Noah's civilization.

To rebalance the Kosmos with no more Evil, only the Torah-Bible conveys the purpose of how Life will be continued. Thus, everyone must pass a test to be invited to the "New" earth home, but we must be forgiven to be resurrected at the end of the Time, why not accept eternal Life the Creator offered.
